HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galphin, of 70, St. Mary's Street, Weymouth, dated May 15th, 1851

To Professor Holloway,

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your [illegible]

Westward Ho!

THE attention of all persons who contemplate emigrating to the "West" is invited to the following facts, to wit:

1st. That the subscriber resides in the most fertile region of country in the United States.

2d. That lands are held at so low a price that it is at present within the reach of any man to purchase a farm and in a most beautiful and healthy climate.

3d. That persons who desire to emigrate to that country but have not the means to purchase a farm when they should get there, that he will sell them farms and wait upon them for the purchase money till they can raise it from the surplus products of such farms.

4th. That one man can raise from his own labor, and that of a span of horses, from $500 to $600 per year besides supporting his family.

5th. That he can locate them upon government land near a good market.

6th. That the location made for them, (except upon government land) would be in a good neighborhood of Eastern people, where the privilege of schools are had.

7th. Any person having lands or wishing to locate any land, can obtain any information they may desire—also any claims which they wish adjudicated or collected in the Western States will be promptly attended to upon application to the subscriber.

Also the highest price paid for land Warrants and locations made of the same upon the best lands in the great West under his own supervision.

Paramatta, about 15 miles from Sydney, is connected with that place by a railroad, [and h]as a population of 6,000. The chief towns [ar]e Windsor, Maitland, Newcastle, Bathurst [and] Goulburn. The settlement of Western [Au]stralia, or Swan River, was begun in 1829. [Th]e population is now about 6,000.

South Australia was founded in 1836, by a [c]ompany on a public grant of land which was [to] be sold at a uniform price of $6 per acre, [and th]e funds derived from sales to be expended [in p]roviding free passages for laborers. South [Aust]ralia has an area of 300,000 square miles. Murray River, about 1,500 miles in length, [tr]averses the colony. In 1846 the population [was] 22,000. In 1845 the discovery of the copper mines of this region was made, and, till the [gold] was discovered, was the cause of a rapid [increase] in the colony. In 1851 the city of [Adel]aide contained 15,000 inhabitants. The [clim]ate is very bland, and pulmonary com[plaint] is almost unknown.

[Th]e colony of Port Phillip or Victoria, was [sett]led in 1834, by a few sheep-owners from [Van] Dieman's Land. It is better watered than [any o]f the other districts. Melbourne, the Cap[ital, c]ontains a present population of 50,000, [and is r]apidly increasing.

[The] different districts vary greatly in their [cha]racter; Some are suited to grazing; others [yi]eld well to the plough, and others are a desert. [The] productions have a large range, from the [tro]pical climate of the North, to the mildly [temp]erate of the Southern coast. It is the [greatest] wool-exporting country in the world. [The gr]ape vineyards are numerous. Live stock is [beco]ming a great article of export. The number [of] sheep is nearly 25,000,000. The butter [and ch]eese are particularly fine. The exports [ann]ually amount to the amount of some $30,[000,000] to $40,000. [illegible] 30,000.

The mineral treasures of Australia [illegible]

[illegible] 42 [illegible]

[illegible] are now the famous Burra Burra [mines] [illegible] on which 15,000 tons of ore are annually raised.

The controlling event in the history of Australia was the discovery of gold. Early in the spring of 1851, a returned Californian, struck with the geological resemblance of the country to the gold bearing regions of California, commenced prospecting and found the bed of a creek filled with grains and scales of gold. The beds of the streams descending from the Blue Mountain range, were found to be auriferous. The discovery was soon spread abroad, and in a month's time, thousands of miners were digging in the "Ophir" discovered. Prospectors were fortunate in discovering gold in the colony of Victoria. Gold was discovered at the village called Buninyong, about 60 miles west of Melbourne. In October, 1851, seven thousand miners were here assembled. Richer deposits were found at the base of Mount Alexander and at Bendigo Creek. Forty thousand [illegible] collected at these localities. [illegible]

[illegible]

[illegible] discovery of gold, [w]ith a mass was found by a black shepherd in the bed of a creek in the Turon district. Another weighing over twenty-seven pounds, was found at Forest Creek, Mt. Alexander; it contains no quartz but is a massive lump of a very fine color; it is 11 inches in length and five in breadth at the widest part.

The amount of gold raised since the discovery, is estimated at not less than thirty millions of dollars, and the gold region contains an area of about 16,000 square miles. Here, as in California, the matrix of the gold is in quartz, and when suitable mills shall be put in operation to crush the quartz, the yield will be immense.

The emigration from the British Islands to Australia, is at the rate of one thousand a week, and from Canada and the United States, large numbers have gone and the number is increasing. The harbors of Melbourne and Sydney, are crowded with shipping, and the foundations of new seats of commerce and empire are thus being laid on the shores of the Pacific.

The British convict prison and colony, is located on the left bank of the river Derwent, a fine stream. The prison is in the very heart of Hobart Town. It is the principal convict depot in Australia, and the largest, probably in the world. Hundreds of miserable beings are drafted out here daily for other convict stations in the interior of the island, to work out in chains their respective terms of punishment. Whilst on the other hand, as many are daily pouring in from other points of this ocean jail, whose term of slavery has expired for the time being. This is what the Government term *probationary* punishment.

A writer in the Alta California, gives the following description of the manner of working the convicts at this station:—

"When a convict ship arrives from England, the prisoners are immediately, under a strong guard, marched into the penitentiary. From this place they are immediately sent away in companies to different stations in the colony, to work in chains, for a stated period, which entirely depends on the term of their original sentence in England. Some are sent out for five years, others for seven, fourteen, and twenty-one; and many for life. This latter class are termed *Bolters*. Should those on probation [c]onduct themselves whilst in chains, they are severely dealt with, and have to perform a *double* term of probationary punishment; but in case of good conduct, they are, at the expiration of their time, marched down to head quarters, and permitted now to go to service in the towns and villages. For instance, should the convict be a tradesman, he goes to work at his trade, if he can find a master to take him; and for this purpose he is permitted at certain hours to search the town in quest of one. He is now bound to do a regular day's work; the only remuneration he receives is his food, and about $45 per year, just sufficient to keep him in tobacco. He is not permitted to quit his master's house for a moment, without a written permission to that effect from his employer; and on no consideration is he allowed to be absent after 8 o'clock, P. M. If he should at any time be guilty of insolence or intoxication, he is forthwith handed to a policeman, who conducts him to the Police Court, here he is very summarily dealt with; if he is not flogged, he is sent back again to the mountains to work in chains another term of probation, or perhaps he gets treated to a three or six months step on the treadmill. But on the other hand, should he conduct himself properly at his master's house for a period of years, depending again on the length of his original sentence, he receives for his good conduct a 'Ticket of Leave;' this now enables him to choose his own master and to keep his evenings to his own use. However, he is still under the surveillance of the police, and has to register all his proceedings at the office for that purpose.

There are thousands of this class, both male and female, employed in this manner. Scarcely a family in the Island who are in the habit of keeping servants can be found who do not employ or have not employed the class referred to.

The only care of the Government seems to be to get these people off their hands as fast as possible, and another method has now been hit upon in finding a ready market for the thousands of the convicts, and thereby relieving the exchequer of the expense of maintaining them. It is neither more nor less than encouraging, between the convicts and the free portion of the inhabitants, matrimonial alliances. In these, young ladies alliance themselves to old men, and young men marry old women. I will explain. A female convict, by becoming the spouse of a freeman, is entitled to all the rights and privileges of a free woman. As long as she keeps with her husband, the bonds of matrimony are the only bonds to which she is subject. The same with a male convict. By marrying a free woman, he becomes, by virtue of his office as husband, as free as the Governor himself, as long as he conducts himself to the satisfaction of his better half. The consequence of this clever stroke of policy is, that marriages of this description are continually coming off with wonderful rapidity. Any of t[he] men can get, in this accommodating country, as young a lady for a wife as he pleases; that is, if he is not over scrupulous as to her past [illegible] in Van Dieman's [illegible] taken into consideration [illegible] to choose from, not one [illegible] him 'his off' [illegible] And on the [illegible] any Australian lady verging on fifty. [illegible] if she requires, with as [illegible] as her heart can desire. [illegible] men of every age and con[dition] [illegible] a partner from—parsons, doc[tors], clerks, tradesmen and laborers [illegible] when she brought [illegible] majority, to get out of Govern[ment] [illegible] the Witch of Endor herself [illegible] accomplish it."

☞ A correspondent of the Calais Journal, writing from Concord the political Mecca of the present time, and wishing to be particularly democratic, more than half promises that fair Cuba shall speedily be freed from Spanish rule. His half or whole promise amounts to nothing, [illegible] only shows that he is not well posted. His [illegible] is simply ridiculous, as the leaders of the party at Washington have given that sheet such an icy bath as to cool off the hot zeal of the Union newspaper and all the filibustering in and about the capital. Those who now dabble in any such notions get the cold shoulder severely. The whole matter is flat enough, the Calais man will find out after he has lived awhile longer.

☞ The 19th anniversary of the Hammond street Sabbath School was celebrated on Sabbath evening. The annual report by the Secretary, E. F. Duren, was interesting. An address was delivered by Rev. J. [illegible] Bodwell of Framingham, Mass. [illegible]

☞ The election of Lorenzo Sabine, Esq., representative in Congress from the old 4th district in Massachusetts is highly complimentary to our old friend from Maine. It is likewise greatly for the interest of the people of that district, for Mr. Sabine is most eminently qualified for an efficient member of Congress. He recently paid a visit, by invitation, to the Fishermen of Gloucester, and his thorough acquaintance with the whole subject of the Fisheries won their highest applause, and his counsels were esteemed highly valuable.

The Boston Transcript facetiously yet with much significance and force declares that the fishermen of Gloucester and Marblehead would barbecue on a whale, in honor of the election of Mr. Sabine, if they could catch one. At any rate, the whigs of the old 4th district are justly entitled to a rich chowder every Friday till the 4th of March next.

☞ The exploring and surveying expedition to Behring's Straits, the China seas, and the Cape of Good Hope, with a view of surveying the best route of navigators from the west coast of America to the east coast of Asia and down to the capes, will sail from New York next month.

☞ Dr. Howe has examined almost the entire number of cases of idiocy known in Massachusetts, and the result is, in all but four instances, he found the parents of those idiots were either intemperate, addicted to sensual vices, scrofulous, predisposed to insanity, or had intermarried with blood relations.

In the House of Lords, on the 2d inst., the Marquis of Clanricarde brought forward notice of a motion to confirm free trade, similar to that debated in the lower House.

Lord Derby, in reply, stated that he had no objection to having this matter, involving as it did the future policy of our country, settled by the House. He therefore suggested some verbal amendments merely, and tendered to the Marquis Clanricarde a resolution, which was accepted as his own. His Lordship then gave notice that on Monday he would move as follows: "That the House acknowledge the general prosperity; and, deeply sensible of the evils attendant upon frequent changes on financial policy, adhere to the commercial system recently established."

At a meeting of the Eastern Steam Navigation Company, held at London, it was mentioned by Sir C. Fox that he with his partners had signed a contract for the construction of a ship canal through the Isthmus of Darien. The canal is to be 30 feet deep at low tide, 140 broad locks, to be 400 from metre to metre, and 90 feet wide between the gate and quoins. He considered that it would be equal to the trade of the world.

Advices have been received from Mulhouse [illegible] which say that no doubt is entertained of a treaty of commerce soon being concluded between France and England, and that the duties on English yarns would be moderated. If so, the duty on raw cotton must be reduced, and commerce with us must increase.

France.—The votes were counted on the 2d, and the result was laid before the Emperor at St. Cloud, by M. Bilault, to which the former replied, saying: "I take from this day the crown of Napoleon III. because the people have bestowed it upon me with their acclamations; because the Senate has legally proposed it, and because the whole nation has ratified it. I receive it on my oath, that no sacrifice shall be wanting on my part to secure the prosperity of my country, and that whilst I maintain peace, I will yield in nothing which may touch the honor or dignity of France."

The Emperor Napoleon has signed a decree pardoning all persons guilty of offences of the press, also 210 political convicts.

At one o'clock Napoleon made a public entry as Emperor into Paris.

A brief telegraphic despatch in the London papers says that the entry took place amid the people, guard and army. A formal pro[cla]mation of the empire was made at the Hotel de Ville at 10 A. M. The empire will be proclaimed in all the departments Dec. 5th. The imperial crown, ordered sometime since, is nearly ready. Lemonnier, the jeweller on the Place Vendome, is the artist. He is also preparing a casket of jewels for the future empress.

Gen. Rybynski, a distinguished Polish General, has forwarded an address to the emperor, saying that the Poles will range under his banner should France renew her wars.

A Birmingham manufacturer has received an order to coin 700 tons of copper into the coinage of the new French empire; 4000 tons are required in all, and the work will take four years to complete.

A city illumination in the evening, but the grande fetes are put off till the coronation.

Gen St. Arnaud, Magnan and St. Castaine have been appointed Marshals of France.

A battle had been fought in Algeria between the French troops and some insurgents. The latter were routed with a loss of 20 men killed, 2000 camels, and 20,000 sheep.

☞ That staunch old landmark of the Whig party, Senator Bell, of Tennessee, was invited on the 20th of November, by a large number of the members of the Whig party of New-Orleans, to a public dinner. He replied on the 1st inst., declining the honor, in a very eloquent letter, in which he is far from yielding to the opinion that the Whig party is dead. He says:

"We occasionally hear the opinion advanced that the Whig party, for reasons which need not be recited, can no longer maintain an effective organization. I regard this as a mistaken apprehension. The cardinal principles and policy of the Whig party will endure under every vicissitude of fortune; and an organization in some form, and under some denomination—Whig, Conservative, or what else [illegible]

[illegible]

Marks—with but few exceptions have an abiding faith that, while the South will be true to itself, the North, the whole whig North, will come to perceive that to be true to themselves and to the country they must be true to the South and to all the obligations of the Constitution, and thus not only preserve, but impart increased energy to the whig party."

He happily says that "the whigs, now reduced to the subordinate position of mere brakemen upon the whirling train, may combine with the better portion of those in higher command, and by their united skill prevent the cars from running altogether off the track."

The movements of the French in Sonora are attracting much attention. Though apparently only a private adventure, yet the movements there so accord with the tone of the French journals, when speaking of Mexico and the necessity of European colonization as a means of checking the extension of territory by the United States, that a degree of importance is attached to it which it could not otherwise merit.

This Sonora expedition organized last year in California. Some of the emigrants there, after the dissensions between the French and Americans, accepted invitations from the State of Sonora to found there an agricultural colony.—Two companies, one headed by M. de Pindray and another by M. de Legondes, into Sonora.—The expedition failed, broke up into fragmentary bands, and dispersed about the country.—Afterwards, under better auspices, another company was formed, under the lead of M. de Raousset Boulbon, who obtained for himself and his party, a grant of the mine of Arizona, and proceeded to take possession of it and work it. Meanwhile other claimants for the mine of Arizona appeared and were backed by the local authorities, which began to be jealous of the French, and suspicions that their ultimate object might be different from what it appeared on the surface. The Mexican government had stipulated that M. de Raousset Boulbon should carry with him a force of only 150 men. But he soon augmented it to 250 men; and, upon the controversy between him and the local authorities beginning to look serious, he called to him the scattered members of the parties of MM. de Pindray and Lepine Legondes. Thus he had the command of nearly 600 French, well equipped. The Mexican party, under Gen Blanco, who came to dispossess Boulbon, numbered, it is said, 2,000, and in an engagement with the latter were completely routed.—It is generally believed that Boulbon will be able to maintain himself in Sonora, which he has declared independent of the Central Government of Mexico.

Whether the design is to carry out the policy indicated in the French journals, and to establish a French colony on the Pacific, or the annexation to the United States is ultimately intended, as is suggested by the California journals, the operations in that quarter are likely to be invested with considerable interest, and will, doubtless, command the attention of our Government as well as that of Mexico.

Gleanings from Punch.

A New Form of Bard Worship. The robbery committed upon the French author by our Chancellor of the Exchequer, when he was expatiating on virtues of Wellington, was intended after all as a compliment, for Disraeli thought he could not pay the memory of the departed hero a greater honor than by taking something more from the French.

The Pope and the Fine Arts. We learn from a Modena paper that the Pope has given an order to the sculptor M. Jacometti for his fine group of "The Kiss of Judas." The Pope must, no doubt, feel and deeply appreciate the subject. For what a kiss did Pio Nono give to Roman liberty—and how he has helped to crucify her!

Tickled by a Straw. A new paper manufactured entirely of straw has just been discovered. Perhaps the most appropriate purpose it can be put to, will be for men to draw and accept their bills upon.

Strange Stuff. A newspaper paragraph states that a vessel, arrived from Demerara, has brought a parcel of crabs' oil. What sort of stuff this can be we do not know, but suppose its use is to lubricate machinery; however, we should think crabs' oil would be likely to make locomotives go backwards.

The Political Trappist. Disraeli digging his own grave with a pair of scissors.

The Quart Bottle Trick Made Easy. We think the Chancellor of the Exchequer is in a beautiful condition to perform the above trick, for he has *made himself so small* by his late robbery upon a French author, that he could get into any vessel, however little—even a pill box. Perhaps, however, it would be dangerous to tempt him with the latter, for if he was anything resembling Thiers at the bottom, he would be slipping into it directly.

Two Subjects Rapidly Excluded from General Conversation. The Rights of Woman, and the Wrongs of Ireland.

The Pantomime of Protection. The [illegible] says, with respect to the Queen's Speech on Protection: "A constitutional monarch, who speaks by the advice and upon the responsibility of the official administrators of his government cannot adopt an ex parte opinion. A clown in the pantomime can change his mind [illegible]."

Certainly not. It is only for a Chancellor of the Exchequer to do the bottle trick. By the way, it is said that Mr. Disraeli has already done more than go into a bottle, namely, he has corked himself up.

Fire at Gardiner.

A fire broke out in the Post Office block, (adjoining our office) about 2 o'clock, this (Saturday) morning. When first discovered it appeared to be in the passage between the first and second flights of stairs and under the latter.

In the second story, the barber shop of J. N. Brown was riddled. Loss about $200—insured. Drs. S. & C. W. Whitmore loss probably $100.

The office of D. Nutting, Esq. was somewhat damaged. A part of the books and papers of the city have been kept in Mr. Nutting's office, these were all saved.

In the third story, Mr. Lang, Daguerreotypist, lost his entire stock, apparatus and furniture, amounting to about $800. The Transcript office, adjoining, was slightly damaged by smoke and water.

On the first floor were the Post office, the Watch and Jewelry store of Charles Swift and the Grocery and Provision store of Charles B. Stone. The contents of the Post Office and of Mr Swift's store were removed without much damage. Mr. Stone's stock was damaged by water to the amount probably of $200 or $300—not insured.

The damage to the block itself, which is owned by F. Richards, Esq., is supposed to be about $1,200.

The engines were disabled by the removal of a pin from the plunger of each, and the work was doubtless that of an incendiary.

EVERY FAMILY should at once procure a bottle of the great Arabian remedy for man and beast, called H. G. FARRELL'S ARABIAN LINIMENT. It allays the most intense pain in a few minutes, restores the synovial fluid or joint water, and thus cures stiff joints, it penetrates the flesh to the bone, relaxes contracted cords, cures rheumatism and palsied limbs of twenty years standing, also tumors, swelled neck, enlargement of the glands, and is the best medicine for ailments of cattle ever discovered, curing sweeney, spavin, splint, and all diseases which require an external application.

Sun Pain of 10 years' standing cured by H. G. Farrell's Arabian Liniment.

Mr H. G. Farrell—Dear Sir: I had been afflicted with the "Sun Pain" for the last ten years, and could never get relief except by bleeding, but by the use of H. G. Farrell's Arabian Liniment, applied over the temples about three or four times a day, it was entirely removed, and I have felt nothing of it since. I went into the stable one night, to apply it to a horse's sore leg, and being very lame he stumbled and fell against my legs, crushing and bruising them so badly that they turned black to my hat, rendering them powerless. I applied your Liniment, and was well enough in a few days to go about again as usual. I also crushed my finger in a shocking manner, by letting a block fall upon it, your Liniment soon healed it up, though.

JOHN B. McGEE.

La Salle precinct, Peoria co, Ill., Feb. 6, 1849.

[*Esq. Barker, of New Canton, Ill., says*]

Mr H. G. Farrell's Arabian Liniment has cured some bad cases here, which every other remedy had failed to, one was a white swelling and contracted cords in the leg of a boy twelve years old. The leg had withered away, and was so contracted that he had no use of it. Three doctors had tried their skill upon it in vain, and he was fast *sinking to the grave*, when the boy's father was induced to try "G. Farrell's" Arabian Liniment. Before the first bottle was used up, he came to Mr. B.'s store, and the first words he said were "Mr. Barker, I want all that Liniment you have in the store, for one bottle I got did more good than all that had ever been done before." The boy is now well and hearty, and has free use of his legs. It is good for sprains, bruises, cuts, burns, and swellings.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrapper, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by R. F. Kassell, Oldtown. Pierce & Hamilton, Dexter. Geo. Barber, Ellsworth. P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c.

DR. KINNE'S

Magneto-Electric Machine.

CERTIFICATE.—I have examined Dr Kinne's Magneto-Electric Machine and consider it well adapted for medical purposes, possessing the advantage of operating without either chemical solution or labor, and being capable of being wound up like a watch, and giving a continued action of an intensity easily regulated, for nearly half an hour. I regard it as superior to any machine now in use. LAWRENCE REID, Professor of Chemistry New York Hospital Dec 2, 1851.

The Celebrated Indian Doctor,
JOS. SAUKABASIN,
HAVING availed himself of the medical knowledge of the tribes who composed the original inhabitants of this country, and having by upwards of twenty years experience gained a knowledge of the most perfect combination of the vegetable substances which are the growth and natural remedy for the diseases of the climate, offers his services in all disorders. He has in his possession a great number of certificates, testifying to the powerfully beneficial and often sudden effects of his medicines. From a very large number of certificates he selects the following:
Brewer, July 2, 1848.
To whom it may concern—This will certify that I had a very severe attack of the Rheumatism in my hip; I tried various means to cure it, but it grew worse and worse for about three months, when I applied to Dr. JOSEPH SAUKABASIN, one of the Penobscot tribe of Indians, who cured me entirely and in a very short time, and I have never been troubled with it since. And I feel it due to him and to the community to recommend him as a safe and skillful physician. BENJAMIN SNOW.
This will certify that I was afflicted for over thirty years with a Scrofulous humor in my leg, and I applied to four or five physicians, and got no relief, until I fell in with JOSEPH SAUKABASIN, and he gave me one bottle of medicine, and cured me so it has troubled me none since, and is healed perfectly sound. My daughter Hannah was afflicted with a Cough, and Spitting of Blood, and by taking his medicine was cured. SYLVANUS COOMBS
Camden, August 15, 1852.
Holden, Dec. 3, 1852.
Dr. Jos Saukabasin—Dear Sir: I feel it a duty to give you me best thanks for curing my wife of a disease of long standing—a dropsical complaint—and I believe if it had not been for your medicine she now would have been in her grave. ANDREW L. PINKHAM.
December 7th, 1852.—I feel perfectly satisfied that Dr. Joseph Saucabasin has cured my boy of a fever sore when all other doctors gave him up. NATHAN DYER.
He has located himself in Brewer, above the Toll Bridge, where he may be consulted by mail or otherwise, and will be frequently in Bangor.

PATENTS.
American and Foreign Office
AGENCY FOR BUSINESS WITH U.S. PATENT OFFICE, WASHINGTON
No. 22 State Street, . . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, whereby a Patent may be procured about six weeks earlier, he continues to forward them free of expense—to prepare Caveats Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions and in consulting in respect to them, matters in general of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice, an extensive collection of rare works decisions &c on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

R H EDDY, Solicitor of Patents,

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R H EDDY, Esq, of Boston did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

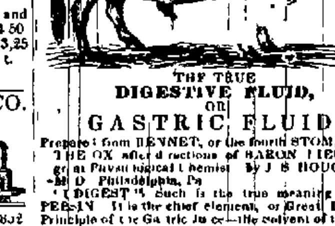
ANOTHER SCIENTIFIC WONDER!
GREAT CURE FOR
DYSPEPSIA!
Dr. J. S. HOUGHTON'S



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH OF THE OX after directions of BARON LIEBIG the great Physiological Chemist by J S HOUGHTON, M D Philadelphia, Pa

"DIGEST" Such is the true meaning of word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the Food the Purifying Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID precisely like the natural Gastric Juice in its Chemical powers and furnishing a complete and perfect substitute for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the Stomach

SCIENTIFIC EVIDENCE.

The Scientific Evidence upon which this remedy is based is the highest degree Curious and Remarkable

Call on the Agent and get a Descriptive Circular, gratis giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry, Dr Combe's Physiology of Digestion, Dr Pereira on Food and Diet, Dr John W Draper of New York University, Prof Dunglison's Physiology, Prof Silliman of Yale College, Dr Carpenter's Physiology, &c together with reports of cures from all parts of the United States

PEPSIN IN FLUID AND POWDER

Dr Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail free of Postage for one Dollar sent to Dr Houghton Philadelphia

OBSERVE THIS!—Every bottle of the genuine Pepsin bears the written signature of J S HOUGHTON, M D sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicines — Price ONE DOLLAR per bottle.

CHERRY PECTORAL
For the Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded this has gained friends by every trial, conferred benefits on the afflicted they can never forget and produced cures too numerous and too remarkable to be forgotten

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably cure the maladies for which it is employed.

As time makes these facts wider and better known this medicine has gradually become the best reliance of the afflicted from the log cabin of the American peasant to the palaces of European Kings. Throughout this entire country in every State city, and indeed almost every hamlet it contains Cherry Pectoral is known as the best remedy extant for diseases of the Throat and Lungs—and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain France and Germany, where the medical sciences have reached their highest perfection Cherry Pectoral is introduced, on in constant use in the Armies Hospitals, Alms Houses, Public Institutions and in domestic practice as the surest remedy their attending Physicians can employ for the more dangerous affections of lungs. Also in milder cases and for children it is safe pleasant and effectual to cure. In fact some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The Cherry Pectoral is manufactured by a practical Chemist, and every ounce of it under his own eye with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavoured here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe speedy and effectual which this has by repeated and countless trials proved itself to be, and trust by great care in preparing it with chemical accuracy of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

DR. MORSE'S INVIGORATING CORDIAL!
FOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE OR NOCTURNAL EMISSIONS &c. The astonishing success which has attended this invaluable medicine for *Loss of Muscular Energy, Physical Lassitude, and General Prostration* or any of the consequences of youthful indiscretion or indulgence of the passions in riper years renders it the most valuable preparation ever discovered. In fact as a remedy for ... it stands unrivalled and alone. There is no other reliable remedy or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London Paris and the chief cities of Europe as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION EXCITEMENT incapacity to study or business, loss of MEMORY CONFUSION thoughts of Self Destruction fear of Insanity &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been said by some that these disorders ... were incurable. This however is not the fact.

DR MORSE'S INVIGORATING CORDIAL has, and is daily, constantly curing these complaints, relieving the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the names received will conclusively show

Dr Woodward of the Massachusetts Insane Hospital writes of one of his patients being cured by using this cordial thus:— It gives me pleasure to inform you that ... procured some of your Cordial ... He tells me that he has had ... since he commenced taking it, where before he had two or three a week. When he applied to me, says Dr W, I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the meantime he purchased some of your Cordial which has effected a cure ... no other medicine ... I shall ever recommend whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cure out of the question and the proprietor ... conclusive testimony ... to show that the great result ... was ... obtained, but firmly based upon its positive and apparently miraculous virtue ... preparation. And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

have not in a single instance that has been authenticated given their sanction to any other preparation for the above complaints. It has, in many violent and desperate cases effected radical cures after patients had been abandoned ... by ... practitioners of high professional character.

THE COMMON EXPRESSION

Of those who have used this Extract is— I had heard your Cordial highly praised, but was ... having tried various medicines ... for the same purpose ... of obtaining relief when I purchased some of your Cordial. I had no faith whatever ... I feel stronger ... than ... weeks ... I am ... that ... bottles ... will cure me.

Another says— ... distinguished physicians ... cured others ... relief ... completely cured me."

Another says— I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me much expense besides years of mental and bodily suffering.

CAUTION—Ask for Dr Morse's Cordial and take no other, as there are worthless imitations ... excellence ... into the market. It will ... most delicate Female but do good. Beware of all other Cordials &c (and try only his)

Ladies waited upon by Mrs Caroline D Foster at the above place

The following certificate from Dr J C Warren of Boston was given 16 years since but will last forever

Boston January 2, 1835

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath. After some months of observation of his work I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to these important articles

JOHN C WARREN M D Boston

CERTIFICATE The following certificate is from Professor Stuart, of Andover Theological Seminary.

The undersigned having occasion to employ Mr J Frederick Foster of Boston, in making and fitting Trusses for the relief of Hernia takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture and adapting them to the body giving ease and comfort to the wearer surpasses (as far as our experience goes,) any other manufacturer of the article

The numerous testimonials which he has received, together with the recommendations of that eminent Surgeon, Dr J C Warren as a sufficient guaranty for all who may favor Mr F that his instruments will give entire satisfaction and he will satisfy all reasonable demands for an equitable compensation.

BRANT'S INDIAN
PULMONARY BALSAM,
The Great COUGH REMEDY.
Many years of experience, and more than a Hundred Thousand Cures of Consumptive Complaints, have proved to the undoubted satisfaction of all persons who have become acquainted with this wonderful remedy, that it is greatly superior, because it is soothing and healing and more certain to cure Consumption of the Lungs, than any other Remedy in the world. We know however, that it is said by some that Consumption can not be cured. ... we shall not attempt to argue with such, but this we will say, and do declare as a fact which can be proved in thousands of cases, that this medicine has cured Coughs and diseases which before the cures were effected were called real Consumption, and which were attended with symptoms that resembled, and were in all respects like the symptoms of those who die, and when dead are said to have died with the fatal disease Consumption. This Balsam has cured thousands of persons who were said to be hopelessly afflicted—who had hard, dry, or damp Coughs—Pains in the Breast, Side and Back—Difficulty of Breathing—Purulent Expectoration—Feel a Fever—Night Sweats—and wasting away of the Flesh and Blood. Persons having such complaints have been cured after it was said they could not live a week longer. This Balsam has cured some who were supposed to be in a dying state, but by the use of this remedy they now live, and enjoy good health.

This Balsam is purely a vegetable compound. It is pleasant to take and never does injury in any stage of disease or under any circumstances. It effects its wonderful and almost miraculous Cures by Purifying, Strengthening and Invigorating the whole system, equalizing the circulation, and producing a healthy action —thus allaying Cough—soothing the Nerves—and ... exciting Expectoration. It Cures the following diseases viz —

Consumption,
COUGHS and Colds, Bronchitis, Asthma, Spitting of Blood, Bleeding at the Lungs, Pains in the Breast, Side, and Chest, Nervousness, Night Sweats, Palpitation of the Heart, and all FEMALE WEAKNESSES and Complaints ... Cholera Infantum, &c.

THE ROAD TO HEALTH!
HOLLOWAY'S PILLS.
CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr R W Kirkus Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851

To Professor Holloway

SIR —Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion however the virulence of the attack was so alarming, and the inflammation set in so severely that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose she had great relief. She continued to take them and although she used only three boxes she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above from the severity of the attack and the speedy cure I think speaks much in favor of your astonishing Pills

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March 1851 by Major J Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills which she consented to do, and in an incredibly short space of time they effected a perfect cure

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE

From Messrs Thew & Son, Proprietors of the Lynn Advertiser who can vouch for the following statement— August 2 1851

To Professor Holloway

SIR —I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced age, these Pills have so relieved me that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means comparatively active, and can take exercise without inconvenience or pain which I could not do before
